Give the top 3 lookalikes with there similarity scores for the first 20 customers (CustomerID: C0001 - C0020) in Customers.csv. Form an "Lookalike.csv" which has just one map: Map>

The Lookalike.csv file will look like this:

CustomerID	Lookalikes
C0001	[('C0002',0.95),('C0003',0.92),('C0004',0.90)]
C0002	[('C0001',0.95),('C0003',0.93),('C0004',0.91)]
C0003	[('C0001',0.92),('C0002',0.93),('C0004',0.89)]
C0004	[('C0001',0.90),('C0002',0.91),('C0003',0.89)]
